

SPECIAL EDITION

You may have missed the BCAP Newsletter over the past several months and wondered...“Are there any new advocacy activities going on in my state?”...or “What does the adoption map looks like these days?”

After a brief hiatus, the BCAP newsletter is back with a new and improved format just in time to help BCAP celebrate 14 years of advocating for energy codes throughout the country. We have also launched a [new website](#) that we will continue to expand in the coming weeks to provide easy online access to information and resources.

Code updates are always accessible on the BCAP website in “[Code News](#)” – a running tab of up-to-date code adoption and activities that can be sorted by state or building sector. But for those of you who count on our quarterly emails, we will continue to send newsletters to keep you informed of the latest happenings.

[Let us know](#) what you think of the new features and we appreciate your patience as we get the bugs out and upload the new areas of the site. As always, we appreciate the support and collaboration of our many friends and allies. We are looking forward to continued collaboration with you to improve the energy efficiency of our built environment.

Cheers! – the BCAP Staff
